Enjoy the journey through history and nature!

Tsuru City is a small city located in eastern Yamanashi Prefecture with a population of about 30,000 people. Tsuru City has flourished as a castle town since ancient times, and is blessed with abundant nature, including water. This map has also been published by the "Tourism Project" run by volunteer students from the Department of Regional Sociology, Tsuru University of Arts and Sciences.

We are promoting the area outside the city with the aim of revitalizing the area along the Fujikyuko Line, and as part of that effort, we have created a cycling map.

Tsuru City Cycling course

Country roads with a sense of nostalgia

It is a single straight road across rice paddies and is very easy to run down! If you run down it all at once, you might make friends with the wind.

II Road in front of Toduka Brewery

Speaking of dynamic waterfalls

Taro Jiro Falls is not river water but spring water from Mt Fuji! The two waterfalls have different streams and are like brothers. It brings coolness and healing.

I Tarojiro Falls

Nice and green in spring and summer

The road behind the highway is a pleasant place to drive with lots of greenery such as rice paddies and trees. There are few cars on the road, but it is not a wide road, so be careful when passing through.

IV.Road next to the highway

"Rock face x green." Outstanding scenery

In summer, it is very restful to hear the murmuring of the river. In the fall, it is a spectacular spot where you can see the trees turn all red with color!

V.Haneko Bridge

Natural spots where everyone takes pictures

The waterfall is so spectacular that a famous Japanese poet visited it, and the waterfall seen from the bridge is a powerful sight! This is the students' favourite camera spot!
